🌐 /sandhipsridhar

Creative UI/UX designer with a strong background in motion graphics and visual storytelling. I blend design thinking with a deep understanding of user behavior to craft intuitive, engaging digital experiences. Currently pursuing a Master's in Design and Visual Communication in Paris, I focus on creating meaningful experiences that help people and make a difference through design. I'm also an AI enthusiast, actively exploring LLMs and building self-hosted custom AI agents. My experience as a former professional Rainbow Six Siege player brings a unique perspective shaped by strategy, focus, and high-performance teamwork.
